Summary

I am a Computer Engineering student with a good understanding of web development and programming. I have worked on several projects using technologies like HTML, CSS, JavaScript, React, PHP, and MySQL. I enjoy solving problems and learning new things. I'm looking for a role where I can use my skills, gain real-world experience, and grow as a developer.

Education

Marwadi University

Bachelors of technology (CGPA : 9.72)

Rajkot, Gujarat

2022 – 2026

B. H. Rathod High school

12th Science (99.82 Pr.)

Rajkot, Gujarat

2022

Achievements

🏆 **GATE Qualified(54.74 marks)** – Achieved a competitive rank(AIR - 2928) in the Graduate Aptitude Test in Engineering (2025).

🏆 **Top 1% in 12th Board** – Scored 91.63%, ranking among the top 1% of students in Gujarat.

🏆 **TFWS (Tuition Fee Waiver Scheme) Seat** – Awarded a merit-based TFWS seat for engineering.

🏆 **More than 600 problems of competitive programming(Leetcode + GEEKSFORGEES).**

Skill Summary

- **Language** : C, C++, Python, SQL, JavaScript
 - **Framework** : Express, Laravel, Flask
 - **Tools** : DockerHub, MS Word, Git, GitHub, MySQL, MongoDB
 - **Platforms** : Visual Studio, Visual Studio Code, Pycharm, NetBeans, Colab
 - **Soft Skills** : Time Management, Project Management, Communication
 - **Technologies** : MERN, NextJs, PHP, .Net, AWS(basic).
-

Projects

Online Aptitude Quiz APP:

- o Designed an interactive online quiz platform that provides a real-time exam experience with automatic result calculation. It has automatic result calculation for instant feedback.
- o Technologies Used: React (Frontend), Node.js & Express.js (Backend), MongoDB (Database).

ATM Software:

- o Developed a secure ATM system enabling users to perform debit, credit, and balance check operations. Ensured secure data transfer for transactions.
- o Technologies Used: Swing (Frontend), JDBC (Backend), MySQL (Database).

Digital Evidence Cataloging System:

- o Developed a role-based access system for investigation organizations to efficiently store, manage, and access digital evidence in a secure environment. Ensured data security and controlled access based on user roles.
 - o Technologies Used: Flask & Jinja Templates (Frontend), Python (Backend), MongoDB (Database).
-

Certificates

- Programming with Python (Coursera)
 - Python Data Structure (Coursera)
 - Introduction to Networking (CISCO)
 - LINUX ESSENTIALS (CISCO)
 - Python (Hacker Rank)
 - Database Programming with SQL (Oracle)
 - Getting Started with Enterprise Data Science(IBM)
-
